Raise your employees' awareness of IT risks – by means of the Online Security Awareness Trainings from G DATA.

Phishing, social engineering, brute force attacks: Many cyber attacks use untrained employees as a weak point. Hackers send invoices under false pretences, load the spy software onto the PC or decrypt simply chosen passwords in the shortest possible time. The e-learning training includes more than 30 security awareness trainings, with which you can effectively sensitize your employees to IT risks. Our didactic concept combines vivid texts, videos and multiple-choice questions, which can be easily integrated into your daily work in form of 10- to 15-minute lessons.

Know all **risks**

- ✓ Specialist topics selected by **experts**
- ✓ Constant supplementation in the event of **current dangers**
- ✓ Overview of your employees' progress

**Safe** in the long term

- ✓ **Multilingual** for all employees
- ✓ Regular units for long-term learning
- ✓ Ideal preparation for ISO 27001 certification

**Save** costs

- ✓ Significantly reduces the risk of **expensive cyber attacks**
- ✓ Easy and fast implementation
- ✓ Prevent GDPR fines for data protection violations

## Topics

 The new way of working

 Informationen classification

 Social engineering

 Risk management & passwords

 Working in the cloud

 Mobile devices

 Phishing & malware

 Report information security incidents

 Be careful with information

## Effective didactic concept

The contents of the training courses are presented in a varied way and teach knowledge via multiple-choice questions, videos and quick tips. By making your employees active, they optimally keep in mind what they have learned.

## Simple administration

The quick setup does not require any special IT knowledge. Simply add multiple employees simultaneously to the training platform. The clear reporting function allows you to keep track of individual progress.

### At a glance

<b>What?</b>	E-Learning library with more than 30 security awareness trainings
<b>Why?</b>	Long-term secure behavior by your employees
<b>Who?</b>	Multilingual for employees of all departments and countries (German, English, Dutch, French, Italian, Spanish)
